\$9 MILLION ON ITS WAY TO SALT LAKE INTERNATIONAL

*Bennett included airport funds in transportation bill, disbursement
expected this week*

WASHINGTON, D.C. – Senator Bob Bennett, a member of the Senate Appropriations Transportation Subcommittee, is pleased to announce that Salt Lake International Airport will receive \$9 million for construction of a new apron at the airport.

The funds, coming from the Federal Aviation Administration of the Department of Transportation, were included in the FY2000 Transportation Appropriations Bill co-authored by Bennett.

“As traffic at Salt Lake International continues to increase, these funds provide necessary upgrades to the facilities,” Bennett said.

The Airport Improvement Program funds will be disbursed later this week.
